

The logo features the letters 'CBL' in a bold, black, sans-serif font. The letter 'B' is uniquely designed with an orange arrow pointing to the right. Below 'CBL', the word 'Steammax' is written in a black, cursive script font. The 'max' portion of 'Steammax' is highlighted in orange, matching the arrow in the 'B' above.

CBL
Steammax

High performing Steam Boiler
with Low Operating Costs

Just Perfect for Your MSME

CBL Steammax

- High on Performance
- High on Reliability • Low on Operating Costs

With path-breaking achievements in boiler designing, engineering and manufacturing, CBL has established a reputation for innovation and tailor-made solutions.

With a tradition of excellence, CBL now brings you a boiler that integrates safety and reliability with unmatched cost benefits.

CBL SteamMax offers true value to its customers.

The compact, shop assembled boiler is a low cost, dependable solution for industries with small steam requirements.

Operating on multiple solid fuels like coal, wood and biomass briquettes, SteamMax is suitable for a wide range of industry applications.

Capacity: 300 kg/hr, 500 kg/hr, 750 kg/hr, 1000 kg/hr, 1500 kg/hr

Pressure: Upto 10.54 Kg/cm²

Fuel: Coal, Wood, Biomass Briquettes

Unique Customer Advantages

Safe

- Automatic controls for Steam generation and feed water
- Complete Combustion
- No back firing - Balance draft system with forced draft and induced draft fan

Reliable

- High quality components
- Triplex grate bar in combustor
- 98% steam dryness
- Rugged construction and robustness - enhanced performance and assured long term value
- Quality assurance with stringent quality control procedures and sophisticated laboratory testing. At CBL, Rigid standards have been established for our material suppliers as well

User Friendly

- Integrated design with single control panel
- Large access ports for fuel charging and ash removal
- Requires minimum installation space
- Low height boiler with easy access to all parts and controls

Economical

- Fuel flexibility - operates on coal, wood, biomass briquettes
- Skid-mounted and 'ready to use'-minimizing erection efforts and reducing costs substantially
- Material and components of high quality standards - driving maintenance cost to a minimum

Nation-wide service and support

- CBL's pan-India network assures you of a prompt response - whether servicing or upgrading your existing systems
